Avoiding Piracy and Embracing Open Source

Trust me its not technical

Moazin

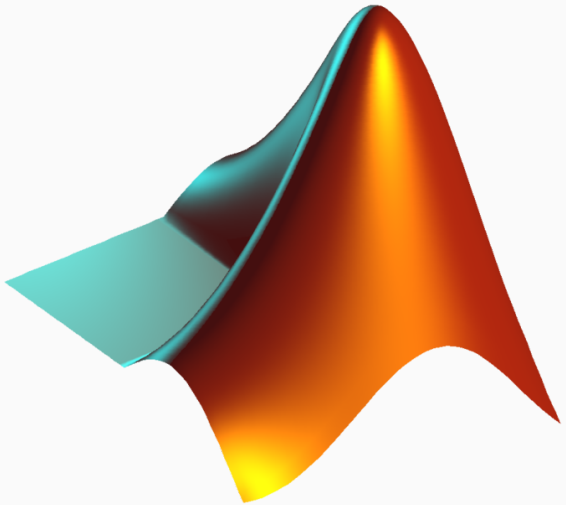
Pakistan Institute of Engineering & Applied Sciences

What is Software Piracy?

Some softwares we use everyday



Akin to Stealing

It's a serious CRIME!

Akin to Stealing

$\$150,000$

Jail time of 5 Years

Most of us can't afford them...

But we need to use them, right?

So, what do we do?

Open Source to the rescue!

Closed Source

A resturant that offers delicious food for some money and doesn't give you the recipe

Open Source

A resturant that offers delicious food for free and also gives you the recipe

A little techincal.. Sorry

```c
#include <stdio.h>

int main(void){
    printf("Hello, class!\n");
    return 0;
}
```

```
moazin@moazin-pc:~/talks/Embracing Open Source$ gcc hello.c -o build/hello
moazin@moazin-pc:~/talks/Embracing Open Source$ build/hello
Hello, class!
moazin@moazin-pc:~/talks/Embracing Open Source$
```

Let's look at some alternatives

The Office Stack

MS Word

LibreOffice Writer

Google Docs

MS Excel

LibreOffice Calc

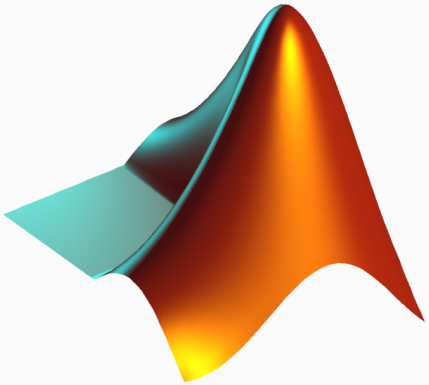
Google Sheets

MS Powerpoint

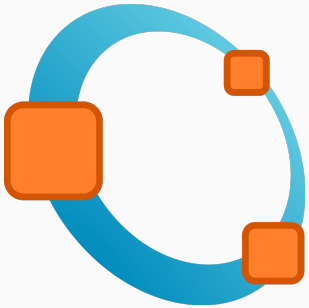
LibreOffice Impress

Google Slides

Computations and Simulations



MATLAB



GNU Octave

Scilab

Creative Suite

Adobe Photoshop

GNU Gimp

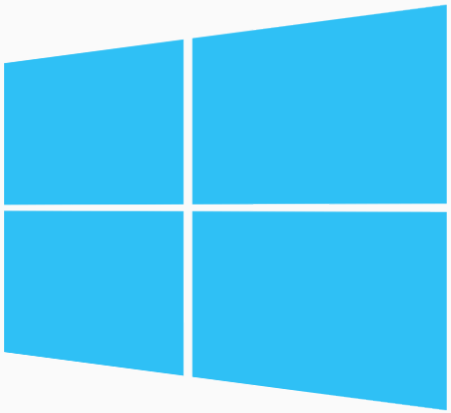
Adobe Illustrator

Inkscape

Adobe Lightroom

Raw Therapee

Operating Systems



Microsoft Windows

Canonical Ubuntu

Mint

Elementary OS

We have barely scratched the surface...

Okay…

But it's hard right...

Pacito Pacito... Despacito
